
experience

with over **25 years** of experience in the industry, as a 1st AD I have gained a reputation as a calm and reassuring presence on set, while getting things done efficiently and smoothly. I am equally comfortable working on intimate and artistic projects as well as demanding technical set ups.

I am adept with **cars, fashion, beauty, stills, sports** (football, formula 1, rugby, tennis, cricket), **celebrities, crowds, children and animals**

I keenly understand the **technical aspects** of filming including more non-conventional ways of filming; **virtual production, stop frame animation, 360vr, motion control, motion capture, highspeed**

I have experience with **aerial drones / helicopters, tracking vehicles, u-Crane** (mobile ultra-arm), **underwater, sfx** (inc: smoke, water, pyrotechnics, snow, wind)

I have overseen many **stunt sequences** with **cars, trucks, motorcycles, wire rigs, high fall and fire arms**

based in london I enjoy working here and around the UK I have also worked in **france, germany, italy, morocco, netherlands, n. ireland, serbia, spain, switzerland, uae, ukraine, and usa**

I speak and have worked using **portuguese and french** - though not fluently - and I understand **basic spanish**

my main focus has been on short form projects I have also worked on a number of features over the years. founder member **adg**
