#### **About me:**

I am an experienced Assistant Director with over a decade in the AD department.

For the last six years, I've worked predominantly as a 1st and 2nd AD on commercials, where I've supported complex, large-scale productions and helped manage shoots involving up to 250 background artists and high-profile talent, including A-list actors. While my recent credits have

been in the commercial world, I originally came up through feature films, trained by some of the best in the industry. I've worked as a 2nd AD on several lower-budget features, which has given me a solid understanding of the bigger picture, particularly the importance of strong communication, talent coordination, and staying across timings and radios to keep the schedule moving smoothly.

That background gives me an edge in a 3rd AD role: I understand how to effectively implement the 2nd AD's plans and support the 1st on the floor. I'm confident my experience translates directly to the demands of a high-end feature, and I'm ready to bring that knowledge, reliability, and calm presence to the team.

As a 2<sup>nd</sup> on commercials, my work includes working with high-profile personalities, children, babies, food, and combined stills/motion shoots, motion control, VFX shoots, large crowd days, low loaders, Russian arms, action vehicles, and underwater crews.

**Skills and Additional Info:**

Experience organizing Radios

Experience handling crowd scenes / movement coordination.

Strong communicator, quick decision-maker, and calm under pressure.

Tech-savvy with experience using industry-standard scheduling and call sheet software

Trained in First Aid At Work (2019 – 2022)
