Additional Information

I am a well-established member of the London TV Commercial circuit with 5 years' experience under my belt. Starting out as a runner, and progressing through the ranks of the AD chain, I came to realise that Production was where I was yearning to solidify my standing. Having done a few jobs as a PA now I feel as though every day is a new chance for learning and I am consistently proving myself as a capable and hardworking member of the production team. Often applying my own positive and pro-active attitude to work on a professional and social level, my peers regularly enjoy working alongside me for shorter as well as longer jobs. Those 5 years have meant that I deeply understand the intricacies of the workload and politics of a set, as well as the methodology behind the organisation and execution of filming TVCs, and I look forward to another 5 years and beyond with the RED name next to mine.
