Additional Information

I am an established AD runner in the London TV Commercial circuit and have been running freelance ever since I left school, with the hope of pursuing a career as an Assistant Director. Known for being a hardworking and enthusiastic AD with a passion for my job as well as the world of film and photography as a whole, I am studious and believe that I am adaptable and responsible when confronted with new and challenging tasks. In the past, I have been described on set as an "expert problem solver and people person whose positivity resonates throughout jobs to hand" and I like to think this applies to every job I work on. Never passing up the opportunity to dip my toes into other paths, however, I have previously branched into other areas such as Sound and Art Dept. In my down time I enjoy playing ice hockey, skating and taking photographs.
