Additional Information

I am a passionate, reliable, and hard-working Politics, Philosophy and History graduate. I have always been fascinated by film and after working on some small productions with friends I realised that the set was where I truly belong. I am an extremely passionate and creative problem solver with a strong attention to detail. I thrive under pressure, particularly within faced-paced environments and can quickly adapt to the new environments often present on set. I am an excellent driver with a clean record and extensive experience of driving large vehicles (up to but not including C1). I have basic first aid and fire marshal qualifications from the St. Johns ambulance as well as an up to date DBS certificate from working with children as a houseparent abroad. I am also a passionate bike mechanic with an extensive knowledge of bicycle repair and maintenance.
