I am a Creative Producer with experience across Branded Content, Promo, Commercial and Corporate video. After starting out as a Personal Assistant for Photographer Alison Jackson in early 2017, I was then taken on as a Junior Producer at Hackney-based agency House of Greenland, working with clients such as Google, Red Bull, and Samsung. After going Freelance in June 19, I have been working as a Creative Producer working for clients such as Universal, Warner, Partizan, ID, The FACE, and multiple London production houses. In addition to this in 2021 I started Directing promos and branded content. .

With experience taking projects through from creative conception to delivery and managing budgets ranging from 6- 250k. I have a network of trusted crew and talent as well as good relationships with rental houses, studios and film offices in London. I have some experience producing internationally and feel confident working with international fixers.
