My own van, DIT, Livestream and Camera equipment | Bases in Bristol, London & Cardiff

STATEMENT

Energetic and hard working Digital Imaging Technician, Camera Assistant and Livestream Operator with a wealth of experience on high end TV commercials, as well as corporate and independent productions. I have my own DIT and Livestreaming equipment, with the latest software, and I'm eager to lend a hand in whatever capacity is needed for the project. I'm primarily looking for DIT and Livestreaming roles in TV and Film, in Bristol, London and Cardiff, but very happy to travel further afield as required. I can also be completely mobile and independent - working from my van with my own power supply and mobile broadband as needed.
