EXPERIENCE

I've been working in film and television since 2008. Like many, I started out as a runner, but then trainee'd in both lighting and camera departments before pursuing the AD route. This has equipped me with a great understanding of how to navigate each department's needs whilst negotiating on-set time restraints.

Experience and skills include: first aid, firearms, COVID-19 and green steward trained; full clean UK driving license; working with children; high profile cast; supporting artists and crowd management; animals; vehicle shoots; stunt and fight sequences; multi-camera shoots; studio; location; nights and splits; shooting abroad; green screen; basic lighting and stage management experience.
