PROFILE Recently graduating from London College of Communication, studying Design for Art Direction. Throughout this time I directed and produced multiple campaigns as part of 3AQ, a creative studio I founded and managed. Until now the majority of my work has been fashion-based however, I have always had a keen interest in film, TV and commercials. I am looking for an opportunity to expand on my skills in a position whereby I can learn, develop and eagerly contribute towards a sector I am passionate about. I am a proactive and optimistic person with excellent people skills and a strong eye for detail.
