Additional Information

I have worked on a number of productions including feature films, TV fiction, corporate videos, music videos and commercials. My skills are best utilised on moving image, stills or mixed media shoots, where I strive to work quickly and efficiently to help a set run as smoothly as possible. I thrive within AD teams as well as production, and particularly enjoy working closely with 1st ADs as I have a keen interest in learning more about the detailed on and off set process. Ideally I would like to move to a 2nd AD position once I have more experience as a runner and in production. I make my own content in a directorial and production capacity for passion projects such as short films and music videos, as well as promotional content.

Other work experience

- English teacher/tutor abroad in Barcelona (**BCN Languages**) and freelance in London.
- Caterer and manager at **Orange Buffalo**.
- Crew (setting up and de-rigging music events) for **Chloe’s Crew**.
