With 6+ years of experience in assistant roles. I am now looking to situate myself into more short form work such as on Advertisements and Music Videos where I can begin to further my creative career and meet like minded people.

I've been lucky to continually work as a Studio Assistant this last year for almost 11+ months. Currently, I am working on the upcoming Band of Brothers TV series. Where I was assigned to solely look after the running and upkeep of two splinter workshop sites: One in Longcross Studios and one in High Wycombe, where I co-ordinated the full outfitting of facilities
