

# ROBERT MACFARLANE

NARRATIVE  
DIRECTOR

## A BIT ABOUT ME...

I am a narrative director and content creator with extensive experience as a DOP, Editor, and DIT over 18 years in the UK and Caribbean.

Most recently, I directed the short film / proof of concept, Immune, which has won 9 awards including 2 awards for Best Director and 2 awards for Best Short. Additionally two distribution companies have expressed interest in developing the project further. I am also developing a political thriller which has also garnered interest from producers, one of which was involved with Harry Potter.

In addition to directing, I also present *The Director Toolbox*, a YouTube channel that explores the art of directing the best scenes in film and TV. To date, I have created over 150 episodes.

---
