Skills

-Organisation

-Clear Communication

-Problem Solving

-Heavy Lifting

-Ability to Multi-task

-Working Well Under Pressure

Statement

Over the past four years I have gained experience on a variety of productions such as commercials, documentaries and short films as a Runner and set PA, as well as roles in the AD Department. I have gained hands-on experience in various aspects of film production, from assisting with set design to coordinating logistics for independent commercial and music video projects. This practical experience has equipped me with knowing how to safely move and set up equipment such as Ezee Ups, tripods and monitors. I understand the importance of details in a successful production and strive to be an effective communicator between different departments, while being proactive to consistently maintain cast and crew welfare.
